## 5 -Year Standard Warranty

Mount Olive, N.C. (May 10, 2016) – IMPulse NC LLC, the leading U.S. manufacturer of overhead contact system (OCS/Catenary) hardware for public transit systems, announces its new five (5) year standard warranty.

As an industry leader in quality with a proven history in extended life cycle cost, IMPulse is able to offer this customer benefit with no added charge to enhance the exceptional value add and cost effectiveness of its products. All IMPulse manufactured parts are covered under this warranty plan.

The effective date for the new warranty is July 1, 2016.

IMPulse NC LLC, a Marmon/Berkshire Hathaway company, is the premier and leading U.S. manufacturer of overhead contact system/catenary hardware for all types of electrified transit systems including streetcars, light rail, intercity & commuter rail, freight, heritage trolley and electric trolleybus with products in service worldwide.

The company’s name brand is “Ohio Brass,” which dates to construction of the first electric-powered streetcar system, in Richmond, Virginia, in 1888. IMPulse products are made in America – meeting Federal Buy America requirements – and undergo strict adherence to ISO 9001:2008 (soon to be 9001:2015) Quality Standards.
